TO OUR CUSTOMERS

THE "Highton" make of Registers has stood the test of 62 years. They are made by skilled workmen under the supervision of a trained and experienced organization.

We have kept in constant touch with modern methods of Heating and Ventilation, and offer a line of goods that covers the requirements for all kinds of Heating and Ventilation.

In the following pages will be found illustrations and price lists covering our standard goods, together with cuts of some of our special designs.

The special points of each are described under the different headings.

We would call attention to the following general instructions in regard to ordering goods.

In the absence of information to the contrary, we assume that sizes called for on orders are opening sizes, the extreme dimensions including the rim or margins being somewhat larger (see pages 44 and 45).

All prices are subject to change without notice.

All agreements are contingent upon accidents, strikes, or delays beyond our control.

In shipping goods our responsibility ceases as soon as the goods are delivered at shipping point in good order and condition to the transportation company and a receipt taken for same.

When so ordered, Registers and Faces will be drilled in the rim or flange of the Faces and screws of the same finish furnished without extra charge; also Register Faces or Grilles of any design can be furnished without wheel slot or body screw quadrants in fretwork, but such special Faces or Grilles and drilled Registers and Faces are not carried in stock, and under no circumstances will special Faces or drilled goods be accepted for credit.

Respectfully submitted,

WM. HIGHTON & SONS COMPANY.

CONCEALED BORDERS

The Concealed Border forms a frame in which to place a floor register so that it can be readily removed. The Border is screwed to the rough floor and the finished floor is

butted against the Border when laid and no further fitting of the Register in the floor is required. The Border is only about $\frac{1}{8}$ in. larger all around than the Register Face and is the latest development in the construction of heating systems.

PATENT APPLIED FOR

THE HIGHTON "IDEAL" ADJUSTABLE UNDERSEAT VENTILATOR WITH LOCK NUT

Insures equal distribution of air for the ventilation of auditoriums, churches, theaters, schools, and public buildings.

After years of experience in the manufacture of Underseat Ventilators of various kinds, we have combined all the good points of our previous efforts and added several new features which make this the ideal ventilator.

This ventilator is so designed as to give the least possible resistance to the flow of air. The underside of canopy is properly curved to allow the air to pass out freely. A few turns of the canopy regulate the size of opening and a turn or two of the locking screw holds it in any position desired.

Made in four Sizes: 4 in., 5 in., 6 in., and 8 in.

9×12	2.20	2.75	2.80	3.90
10×14	2.60	3.25	3.40	4.60

IDEAL DESIGN

Made in the following sizes:

7×10 8×12 9×12 10×14

DIAMOND LATTICE

Made in sizes

11×13 and 13×15

CARVED DESIGN, with Wall Border

Made in the following sizes:

7×10 8×12 9×12 10×14

For design and list of sizes made in Circular Top Convex Registers, see pages 20, 21

ROUND REGISTERS, FACES, AND BORDERS

SLIDE-CENTER MOVEMENT

This cut shows ceiling ventilator made by attaching fixtures to round plain lattice design register.

Side wall or ceiling fixtures can be attached to any design of round register.

For list price of ventilator add 50 cents list to register list on sizes up to 14 inches, and \$1.00 list on 14-inch and all sizes above.

For prices on indicators, cord, etc., see page 8.

PLAIN LATTICE DESIGN CEILING VENTILATOR

With cords and indicators. Made in all Listed Sizes.

LOCK REGISTERS

Lock Registers are made in two types, the Key Operating and the Vertical Wheel Movement with our Patent Locking device.

PLAIN LATTICE DESIGN
(Key Operating Type)

MOORISH DESIGN (Key Operating Type)

Made in the following sizes

8×8	9×14	10×18	14×16	16×20	20×26
8×10	10×12	12×12	14×18	18×24	20×30
8×12	10×14	12×15	14×20	20×20	24×24
9×12	10×16	12×16	16×18	20×24	24×30

The "Key Operating" Type Lock Register operates and locks by the use of a key only.

It is made in two designs, the Plain Lattice and Moorish (Asylum) Designs.

The Plain Lattice Design is intended for use where a large flow of air is required with a key operating movement.

The Moorish Design for asylums and prisons, where a close fretwork is required with a key operating movement.

Made in the following sizes:

6×8	9×9	12×15	16×20
6×10	9×12	12×16	16×22
6×12	9×14	12×17	16×24
6×14	9×16	12×18	16×32
6×16	9×18	12×19	18×21
6×18	9×20	12×20	18×24
6×20	10×10	12×24	18×27

8×18	12×12	16×16	24×30
8×24	12×14	16×18	

For list prices of Key-Operating and Lock Registers add \$2.00 to list price of Vertical Wheel Register of same size and finish. Pages 9 to 14.

Subject to regular register discount.

LOCK REGISTERS — Continued

Vertical Wheel Movement with Patent Locking Device

When valves are in position desired turn down the screw with the key.

This device for locking the valves in a Register or Ventilator in either an open, half open, or closed position prevents meddlesome or irresponsible persons from tampering with the movement. It is especially adapted for use in Public Buildings, Asylums, Prisons, or other locations where it is desired to have the valves remain in the position in which they are placed. The locking device will not interfere in any manner with the operation of the valves if it is desired to use the Register in the usual manner, as the movement of the Register is entirely separate and independent of the locking screw, which when turned up away from the connecting rod leaves the movement to be operated in the usual manner.

PLAIN LATTICE DESIGN

Made in all listed sizes

MOORISH DESIGN

Made in the following sizes:

8 × 8	10 × 18	16 × 20
8 × 10	12 × 12	18 × 24
8 × 12	12 × 15	20 × 20
9 × 12	12 × 16	20 × 24
9 × 14	14 × 16	20 × 26
10 × 12	14 × 18	20 × 30
10 × 14	14 × 20	24 × 24
10 × 16	16 × 18	24 × 30

This locking device can be applied when so ordered to any of our Registers having Vertical Wheel movement, of any size or any design of face made by us, Plain Lattice in all sizes, at an additional cost of \$2.00 list for each Register.

For List and Finishes, see pages 9 to 14

REVERSE BEVELED WALL FRAMES

A very convenient fixture for holding the Register in the wall; the frame is securely masoned into the wall and the Register is attached by screws. The Register can be removed without disturbing the wall. Adapted for use in asylums, prisons, etc. Made 2 inches and 4 inches deep.

Large size wall frames furnished in sections ready to be bolted together. This prevents breakage in shipment. Above prices cover these frames in that condition.

U. C. S. S. FRAMES

The most improved method of securing Grilles or Register faces to sheet metal ducts. The frames fit inside the duct same as Register bodies and are attached in a similar manner.

SANITARY REGISTERS AND GRILLES — For Hospitals, etc.

10 x 18

18 x 10

The above cuts show **Sanitary Grilles** as they appear when set in wall in horizontal and vertical positions.

SPECIAL TYPE SANITARY GRILLE

The advanced sanitary conditions now required in all hospital buildings are fully met in this production, and the results of our having placed these Grilles in several hospitals and infirmaries have been the hearty approval of physicians, surgeons, and architects, and a growing demand for these Grilles in hospital work.

They are so constructed that there are no places for dust, lint, or germs to collect, all parts being of a rounded nature and easily cleaned. A study of the illustrations will show where the objectionable features of the ordinary register for this class of work have been overcome.

When ordering Hospital Registers or Grilles, *the horizontal* dimension should be given first.

Note in illustrations that if the Register or Grille is to be placed in a vertical position, 10 x 18 inches should be given as the required size, and if a Register or Grille of the same size is to be placed in a horizontal position, 18 x 10 inches, would be the correct size to order.

12×14	3 "	6.00	7.00	8.15	9.00

This Register can be attached to the tin box or stackhead by means of straps, for which slot holes have been provided in the body frame.

The face is convex type, open lattice, and adapted for any finish.

"PEERLESS" DESIGN

"KEYSTONE" ONE VALVE REGISTER

Valve Controlled by Compensating Springs

This is the simplest Register made, and is the register for shallow flues, yet the construction allows of it being used in flues the depth of the height of the valve.

The movement is positive, and can be operated by hand or foot.

Made in three designs, "Peerless," "Hightone," and "Plain Lattice."

GRILLES AND SCREENS

On the following pages are shown Grilles and Screens of various materials and designs.

Unless otherwise ordered, we assume that sizes called for are opening sizes. The widths of the rims or flanges vary according to the size of the grille, the thickness of the rim being less than in the fretwork.

Any of our stock designs of Register Faces, as shown on pages 4, 5, and 6, may be used as grilles when the wheel slot and corner screw holes are removed, making the design continuous. Stock designs desired in this condition should be ordered as "clear mesh." When made in this manner they cannot be used with register body and louvres.

Grilles are sold at the same price as Register Faces of the same size and finish.

Prices on other sizes or designs will be quoted promptly upon application.

All goods that are to be painted after being placed in position are given a priming coat of dull white.

We Electroplate grilles to match any standard or special finish.

Solid Brass or Bronze Grilles are carefully filed and finished by hand, and furnished in natural or special finishes.

Wrought Steel Grilles are shown on page 38.

Wire Grilles on page 39.

Special Designs are shown on pages 40, 41, and 42.

CAST GRILLES

CAST IN IRON, BRASS, OR BRONZE

ALL FINISHES

Plain Lattice cast Grilles are made in almost all sizes (opening sizes) of even inches, and in all finishes.

Unless otherwise ordered, a mesh approximately $\frac{7}{8}$ inch square with intervening bars $\frac{1}{4}$ inch wide will be furnished. List prices covering these goods will be found on pages 9, 10, 11, 12, 13, 14. Prices for unlisted sizes upon application.

Plain Lattice Grilles furnished in $\frac{1}{2}$ inch square and diagonal meshes, and in larger meshes as required. Prices on application.

When ordering specify whether for Wall or Floor use.

Grille hinged to Angle Frame and with Catch for access to Valves and for cleaning purposes.

Special designs may be similarly arranged.

Grille hinged to wood-work and with Catch for access to Valves and for cleaning purposes.

Special designs may be similarly arranged.

Estimates for Providing Hinges, Catches, Special Frames, etc., as above, will be furnished upon application.

CAST GRILLES

CAST IN IRON, BRASS, OR BRONZE

ALL FINISHES

Grille with secret door in fretwork for access to valves; the secret door may be placed in any location desired.

Doors generally furnished 6 inch by 6 inch, but can be made any size required that will conform to the bars of Grille evenly. Secret doors may be placed in special designs also.

Grille attached to Cast Iron Reverse Bevel Wall Frame, either 2 inch or 4 inch deep.

For details of Wall Frames, see page 16. Special designs may be attached to Frame in the same manner.

Grille held in place by wood moulding.

Estimates for Providing Grilles as above will be Furnished upon Application.

STEEL GRILLES

 $\frac{3}{4}$ INCH SQUARE MESH $\frac{1}{2}$ INCH SQUARE MESH

RADIATOR ENCLOSURES

Cast Iron, Bronze, or Steel. With or Without Secret Doors

WIRE GRILLES

Wire Grilles afford a cheap covering for Ventilator Openings, and are made in several styles of frames and designs, a few of which we illustrate herewith.

When ordering Wire Grilles or requesting prices, please give us the following information:
 Style and size of Mesh; Gauge of Wire and whether round or flat; Style of Frame;
 Size of Grille; Finish, Black, Bronzed, Plated, etc.
 No standard list. Prices quoted from specifications.

No. 1

Single Twist Flat Wire Grille with ends of wire scrolled, Angle Frame. Give size of flat wire and size of square mesh.

Furnished in any size and finish. Give opening size into which Grille sets.

No. 2

Square Mesh Grille in Channel Frame. Give over-all dimensions. Grilles in Channel Frames furnished in all sizes of Square and Diamond Meshes. Also in Flat Wire Meshes.

Further information and prices upon application.

No. 3

SPECIAL DESIGNS

On the following pages we show a few only of our Special Designs. They are not carried in stock, and in most cases there is an extra charge for modeling.

We make Registers, Grilles, and Screens of designs suited to all orders of decoration from the simple Colonial to the elaborate Renaissance. They can be made in almost any size, can be curved, concave, or convex, and shaped to fit paneling or any special shapes. We work from our own or architect's details. Cast in Brass, Bronze, or Iron. Finished in all shades and to match any standard or special finish.

Dimensions of Convex Registers, Lock or Asylum Registers, and Self-Indicating Ventilators, same as Vertical Wheel Registers.

AIR CAPACITY

For conservative figuring of capacity in square inches for the net air opening of registers, allow two thirds of size, as given in our register list.

The net air openings of our registers vary, however, from 66 $\frac{2}{3}$ per cent to 80 per cent, according to the design used.
